

NAME H. C. TAYLOR AS THE PRESIDENT

STATE DAIRYMEN HONOR ORFORDVILLE MAN.

Placed at the Head of the Wisconsin Organization—His Paper on the "Business Cow" Commended—Session is at an End—Some Other News of Badger State.

Manitowish, Wis., Feb. 12.—The Wisconsin dairymen's convention came to an end yesterday. Shortly before adjournment the following officers were elected:

President—H. C. Taylor, Orfordville.
Secretary—George W. Burchard, Fort Atkinson.
Treasurer—H. K. Loomis, Sheboygan Falls.

Judging from the number that were in attendance, the banquet of the Dairymen's association was the most popular feature of the entire convention. The Ladies' Aid society had charge of the preparations and a very nice supper was prepared for the dairymen and their visiting friends. Covers were laid for 250 at 50 cents each. The proceeds go to the Aid society and will be expended for charitable purposes. Gov. Scofield, ex-Gov. Hoard, Dairy and Food Commissioner Adams, Prof. T. L. Haecker of Minnesota, Mrs. R. Howard, Kelley of Chicago, and a number of others responded to toast Lieut-Gov. Baensch acted as toastmaster. At a late hour yesterday ex-Congressman Cook of Neenah, arrived at the convention. His presence was noised through the assembly and in honor of the important part he took in the passage of the filled cheese bill a perfect ovation was tendered him by the enthusiastic dairymen.

□ E. C. Taylor's address on the "Business Cow," was one of the best features of the session.

Mr. Taylor said in part: "Such cows should be looked for in our own herds first. This searching will cause us to become familiar with individual characteristics and cow powers possessed by each cow in our herd and to determine the tendencies of each cow, whether they be dairy tendencies or otherwise. No cow should be retained not having these tendencies. Dairy tendency is that peculiar individual ability to perform profitably at the pail, to eat and produce, behave herself as becometh a good dairy cow and further to transmit her good qualities to her offspring. The annual cost of keeping a cow is \$35, of which \$10 for labor and \$2 for interest. Skimmed milk pays for labor and interest. It will take 200 pounds of butter at 17 cents a pound to pay for this. A 200-pound cow is at present provided her feed has been grown economically and a good product made. Your product is made in keeping the amount of your product above this limit."

Fight May Prove Fatal.
Elroy, Wis., Feb. 12.—Information was received here that Ed Krausner, an Elroy boy, was seriously hurt in a saloon brawl at Minneapolis. It is said that he thrashed two fellows who afterward followed him out and attacked him with knives. He was cut from the forehead to the neck, requiring fourteen stitches to close the wound. Officers followed the two to their room. There hands were blood-stained and the knife was lying on the table. Krausner's condition is precarious and he may die.

Most of the members have refused to pay their assessments, and suits have been commenced against 1,243 of them. An agreement has been reached with the members to abide by the decision of the court in one case. The receiver has collected enough money to declare a ten per cent dividend.

COLORED PREACHER STOLE THE CORN

WHITEWATER MINISTER AT ELKHORN JAIL.

Ralph Smith Marked His Crop, and Found the Stolen Cereal in the Parson's Barn—Made His Escape Once, But Now Under Lock and Key.

Whitewater, Wis., Feb. 12.—The farmers of this vicinity have been annoyed by numerous petty thefts of late. Many have lost hogs, grain and poultry.

Ralph Smith, a farmer, living a mile east of the city, who has been losing corn at irregular intervals for some time, hit upon a plan by which he could identify his property. He bought a sack of a certain size and drove them into the ends of each cob of corn. Wednesday morning upon going to his corn-crib, he found that someone had entered it as was shown by foot prints. He followed the tracks to the road where they disappeared.

Mr. Smith had suspected a Methodist negro preacher who goes by the name of the Rev. Dr. Chase. He went at once to Chase's barn, where he found several bushels of corn marked with nails.

Tried to Escape.

The alleged parson, as soon as he was confronted with the evidence, disappeared, but was captured by the city marshal yesterday afternoon. He was fined \$10 and costs with the alternative of thirty days imprisonment.

Upon his request he was given until today to pay the fine. In the night he escaped from the lock-up. Two officers went to his home and searched for him in every place which offered a hiding place.

Just as they were about to give up one of them opened a trunk and found the doctor curled up inside. He was taken in custody and sent to Elkhorn jail.

The man lived in Whitewater three years and preaches irregularly at Hebron, Sullivan and other small towns in the vicinity.

OFFICERS ARE NOT KNOWN

The A. P. A. Declines to Announce the Result of Its Election

Milwaukee, Feb. 12.—A. W. Hill, chairman of the Press committee, stated that it had been decided not to make known the names of the officers of the A. P. A. This was the policy adopted last year, and Mr. Hill states no one knew who the officers were. There were many surmises and many names printed, but none, he said were correct. The reason for this is, Mr. Hill states, to relieve the officials from the pressure brought to bear upon them in elections. The American Protective association, he said, is composed of men of all creeds and parties, republicans, democrats and populists. The immunities of party leaders became very obnoxious to the officers and for this reason their names will not be made known. Mr. Hill entered a flat denial to the rumor that politics had been discussed in any manner. "The fact," he said, "that we went into convention at 10 o'clock in the morning and were all through at 5 o'clock is of itself sufficient to prove that nothing of a political nature was attempted or discussed."

NOTE FROM PRESIDENT EATON

He Writes Beloit Friends on Board of the Empress.

The following letter has been received from President Eaton of Beloit College and explains itself. "We are steaming down Vancouver Bay in the fine ship 'Empress of Japan,' fairly off for China, and I send this word of good bye as it leaves the Home-land. Starting in the great storm of last Tuesday seemed like taking the wings of the whirlwind. But after the first night's journey we found ourselves in calmer scenes. There was little snow on the ground in Minnesota and none in Dakota. In the Canadian Rockies the snow lay deep and still upon forests of fir, and upon the mountain slopes. The scenery there is full of majestic alpine in its snowy grandeur.

"One could not put out to sea with finer surroundings than here. Leaving the green sward of Vancouver and its ivy grown door yards, we sail for hours through land locked waters, the mountains standing around like snowy sentries, but Baker looming high above the rest.

"Our steamer is a model of beauty and comfort. The Chinese waiters glide about all silent attention, their long white robes and shiny black queues everywhere in evidence. The steamer is a swift one. It is officered in part by His Majesty's naval officers and is part of the merchant reserve in case of war.

"Tonight we touch at Victoria on Vancouver's Island, and then head out into the open Pacific. Notwithstanding all that we leave at home that we are so loth to be separated from, we look forward with large hopes to our new experience and service in the Orient."

Attention Rebekahs.

You are requested to meet at your lodge room Sunday at 1 p. m. to attend in a body the funeral of our late brother, A. A. Duller.

NEVA HOLMES, Noble Grand.

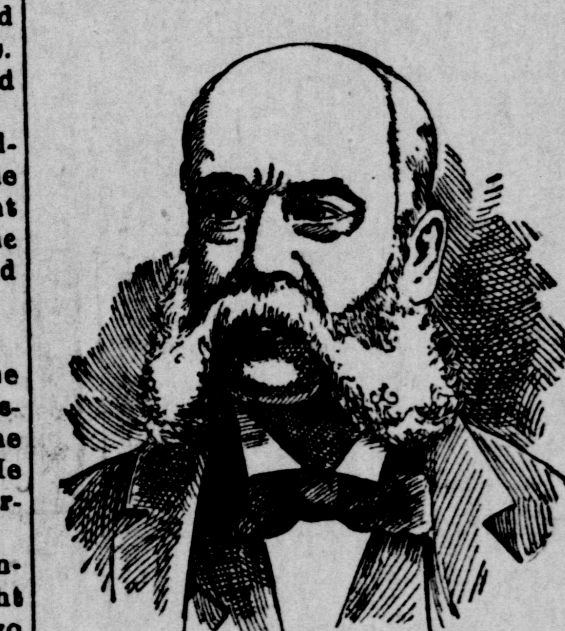

TO FIND THE CAUSE OF NOTE'S DELAY

STATE DEPARTMENT TO INVESTIGATE.

Believed that the Note to the Spanish Government Was Purposely Held Back to Allow De Lome to Resign—Some Dissatisfaction With Woodford is Apparent.

Washington, Feb. 12.—The state department has set on foot an investigation of the delay in the transmission of President McKinley's message, demanding Minister DeLome's recall. It is now believed that it was purposely held back to allow the Spanish cabinet to accept DeLome's resignation before it was delivered.

Washington, Feb. 12.—[Special]—The Spanish situation is in a most unsatisfactory state. The administration

is out of patience with Spain's evasion of the DeLome incident.

Minister Woodford's action, in failing to promptly deliver the demand for DeLome's recall, has also created dissatisfaction, as it allowed DeLome to resign before he could be recalled.

A dispatch from Madrid says that Minister Woodford's relations with the Spanish officials continue to be very friendly. Last night he gave a dinner to a number of cabinet ministers at the Spanish capital.

A NOVEL LAW POINT RAISED

Could Cambridge Hotel Man Keep His Office, Containing a Bar, Open?

Cambridge, Wis., Feb. 12.—Judge Siebecker has made a ruling on a question that so far as known has not yet been passed on by the supreme court. He held that a room containing a bar and used for other purposes besides those of a place for the sale of liquor must be closed at the time fixed in village or city ordinances, whether such closing interferes with the purposes to which the room is put or not. The point came up in the appeal of William Kozler from a decision by a justice of the peace who held that the village of Cambridge having passed an ordinance requiring saloons to close at 10 p. m., could force Kozler to close the office of his hotel at that hour because a portion of the office was used as a place for selling liquors. The village did not claim that Kozler sold liquor after 10 p. m., but that he was violating the ordinance by keeping the place open. Kozler claimed that the village had no authority to compel him to close his hotel office when he sold no liquor after 10 p. m. Olin & Butler represented the village and Spooner, Sanborn & Spooner the defendant.

THE RULINGS ON CAUCUS LAW

Interesting Decisions by the Wisconsin Attorney General.

Madison, Wis., Feb. 10.—The attorney general has rendered an interesting decision on the new caucus law. The cities of Boscobel, Lancaster and Plattville, in Grant county, operate under special charters, which unite them with the townships in which they are situated for election purposes. Under this provision of their charters the attorney general has decided that the whole township in each case must conduct its caucuses under the caucus law.

This is believed to be the only place in the state where the new caucus law will apply to rural caucuses.

Another opinion rendered by the attorney general holds that the judicial elections do not come under the caucus law. The question was raised in Superior, where a judge of the superior court of Douglas county is to be elected this spring. The question of the application of the caucus law to the election was raised by several citizens.

Since Mrs. Quixley was sent to the asylum a short time ago he and his young child have boarded with Mr. and Mrs. George Ward on Pleasant street. Mr. Quixley is very fond of his baby and spent every minute of his spare time with his little one. Last Saturday he went to Janesville stating that he would surely be back at night as he could not think of remaining away from baby. A WEEK'S NEWS FROM FULTON.

Interesting Session of the Literary Society—Thomas Flemming Dead.

A small gathering took place at Mr. Drown's, Tuesday eve, to listen to a recital Miss Marion Barber had prepared on "China." Minnie deserves much credit, for she showed that much thought and study had been given her subject. She took up the geographical and religious customs, and in all, a complete story of the country. Thomas Flemming, who has made his home at Michael Begg's the past two years, died last Friday morning with pneumonia. He came to Fulton about five years ago, and has no relatives around here. He was well liked by all who knew him, and much sympathy and many regrets are heard. Mr. Begg has done much for him and shows how, even in death, true friendship does not cease. He was about thirty-three years old. The funeral took place from the Catholic church, Monday morning, in Edgerton. Ed Attkisson went over to Evansville, Monday. Mr. Child has gone to Milton, to spend a few days. Hurbie Jessup is in town visiting relatives and friends for a short time. Miss Joseph Brown is in Magnolia, visiting, this week. Mrs. Charlie Blican, is visiting her sister in Magnolia. O. P. Murwin and Archie Reid, were in Janesville, Monday. Claude Murwin spent Saturday and Sunday in Albion at Clough's. Mr. and Mrs. George Murwin had quite a Klondike experience in a snow bank, Sunday afternoon. Last Thursday evening a number of Charlie Murwin's young friends took aim by surprise and a very pleasant time was had by all. James Scott of Janesville, was in town Monday on his way to Cooksville, looking over the tobacco and buying where he could make good prices. In last week's items we failed to make mention of a party given Josie Brown by a number of her friends. An oyster

SCOTCH-IRISH BLOOD.

FAMILIES noted for long lines of gallant soldiers are rare in America because of our peculiar social life. In Scotland, where clans bear the same family name generation after generation, brave Gordons and Grants might be expected to come forward as the Wallaces, Bruces and McGregors went out. In monarchies the nobility has its leanings for war, government or science. But in America war is an accident and soldiering not a profession, but a duty. Those were worthy sons of heroic sires who took down the swords of Nathaniel Greene and Light Horse Harry Lee when destiny sent forth the cry "To arms, ye brave!"

It was to be expected that in the south, where the social order is aristocratic, great families would become distinguished in the civil war. But to a middle class family of the north, the Scotch-Irish McCooks of Ohio, belongs the honor of giving to the service the greatest number of closely related soldiers recorded in the annals of any American war. Two brothers, John and Daniel, natives of Cannonsburg, Pa., living in Ohio when the war broke out, sent 13 sons to the war whose records are known, and served themselves to the best of their ability. Daniel was killed at the age of 65 and three of his eight soldier sons died by the hands of the enemy. John and his five soldier sons survived the war.

Living as they did among people given to the use of Bible types, it was natural that these McCooks should be divided by the popular voice into the "tribe of Dan" and the "tribe of John." Taken together the war history of these fighting tribes is remarkable. Four of the eight sons of the tribe of Dan reached the rank of general and two of the tribe of John. Two of the tribe of Dan had been trained to the profession of arms and one of the tribe of John. No doubt this fact had much to do with determining the fates of the others when the country was called to arms. In that crisis brother emulated brother and cousin. The glory of the name must be sustained and just as the blood of an Ellsworth stirred the spirit of vengeance so the death of one of a family made soldiers out of every true man of his tribe. At the first battle of Bull Run Daniel saw his second youngest son, a youth of 18, shot down. What son remaining could withstand the mute appeal of that father's tears while he spoke of the hour when the blood of his blood was poured out for the flag?

The tidings of the death of Charles Morris McCook, who served as private in the Second Ohio, reached the ears of Daniel, Jr., at Leavenworth, Kan., where he was practicing law. With a volunteer company which he had drilled he took the field in a Kansas regiment and fought under the heroic Lyon at Wilson's Creek, the first pitched battle of the west. At Shiloh he was chief of staff of the Army of the Ohio when it saved the day for Grant. In the subsequent battles of the west he served as colonel and brigadier general until the hour of his most glorious death on the slopes of Kennesaw. Sherman selected him to lead in that grand but useless assault and at the first dash his brigade followed him to the Confederate works. Two of his regiments, the One Hundred and Twenty-fifth and Eighty-sixth Illinois, met with the severest regimental loss in the three divisions which took part in the assault. While waiting for the signal to charge Colonel McCook repeated to his men the first stanza from Macaulay's poem, "Horatius at the Bridge":

Oh, how can men die better
Than facing fearful odds
For the ashes of their fathers
And the temples of their gods!

Soon after passing the abatis with the front files of the Illinoisans the hero was cut down with a mortal wound. Before his death he was promoted brigadier general for his brilliant courage in that disastrous assault.

Daniel of Kennesaw was the last of the sons and the last of the fighting McCooks to die for the flag. The first to go was the boy at Bull Run. Then fell General Robert Latimer McCook, the victim of a war tragedy in the summer of 1863. It seemed that the McCooks had a martyr for each of the bloody four years—Charles Morris at Bull Run in July, 1861; Robert Latimer at the hands of partisans in August, 1862; Major Daniel, Sr., on the banks of the Ohio at the hands of Morgan's men, July 21, 1863 (anniversary of Bull Run), and General Daniel near Kennesaw, in 1864, also on the anniversary of Bull Run.

Robert L. McCook met his death in a singular and most tragic manner. The ill-starred general was one of the most promising of all the fighting family. At the outbreak of the war he raised in Cincinnati the celebrated Prussian regiment, the Ninth Ohio. It was his brigade, led by the Prussians, which turned the tide at Mill Spring and gave Thomas his brilliant victory.

The rank of brigadier general was given for gallantry at Mill Spring. McCook commanded his brigade under Thomas and when killed was retiring from the Tennessee river northward to defend Kentucky against Bragg's invasion. On Aug. 6 he was taken sick and

his troops. He was pursued and ordered to stop, but the horses ran away and could not be controlled. In answer to the demands of his enemies to stop the general shouted: "Don't shoot! The horses are running. We will stop as soon as possible." In spite of the appeal shots were fired into the carriage, one causing a mortal wound. The deed created a bitter feud, outlasting the war.

Robert's middle name was the family name of his mother, Martha Latimer, a Scotch-Irish woman of rare intelligence and courage. He was the third in the line in service, but the eldest of the elite fighters in the tribe. The oldest son, Latimer A., entered the army in 1861 as surgeon of General Logan's regiment. He served through the war and died in 1869 from the effects of injuries and exposure in the armies of Grant and Sherman. George Wythe, the next eldest, had served gallantly with the Ohio volunteers in the Mexican war and was unable to take the field in 1861. However, he raised and for a time commanded several Ohio regiments. The father next joined in the eternal bivouac the youngest and eldest of his martyred soldier sons. At the age of 68 he offered his services to the government and was commissioned major. When Morgan rode across the state of Ohio in 1863, the old hero volunteered with the cavalry pursuers and was killed in the battle which decided Morgan's fate, at Buffington's Island, July 21.

Major General Alexander McDowell McCook, now on the retired list, is the most distinguished military member of this remarkable family. He graduated at West Point soon after the Mexican war and served gallantly on the plains. What a power there must have been in

the shoulder straps of the young lieutenant and of his brother Edward Stanton, who graduated at the Naval academy in 1859, and also of their cousin, Roderick Sheldon, another naval officer, to dazzle the remaining members of this ambitious family! Alexander led the First Ohio volunteers to the field and soon after Bull Run was appointed brigadier general. At Nashville and Shiloh he won regular brevets and in the summer of 1862 took command of an army corps with the rank of major general. The naval cadet of the tribe of Daniel, Edward Stanton McCook, followed the lead of his friend and mentor, John A. Logan, and raised a company for Logan's regiment, the Thirty-first Illinois. He was wounded at Donelson and succeeded Logan in command of the regiment, as he did also in command of the brigade and division when Logan was advanced by promotion.

Colonel John James McCook was the youngest soldier of his tribe in the field. He enlisted in the Sixth Ohio cavalry at 17 and came out with the rank of captain and a colonel's brevet. John James was the second of the name in Daniel's family. The first John James died in the line of duty on board a United States man-of-war off the coast of Brazil in 1842.

The head of the tribe of John was a practicing physician and served his country as a volunteer surgeon. The most brilliant fighting record of this tribe fell to General Edward Moody McCook, a Rocky mountain pioneer before the war. Early in 1861 he performed a daring feat as a secret agent and was commissioned in the regular army. Step by step he won his way to the full rank of a brigadier general of volunteers. During Sherman's march to the sea McCook's cavalry penetrated the enemy's lines in a manner worthy of Forrest, the Confederate wizard of the saddle.

General Anson George McCook, John's second son, was on the field of Bull Run as a captain in the Second Ohio. He arose step by step to the command of a brigade and the rank of brigadier general by brevet. Honors were not showered on these McCooks. They had to win them over and over again. Daniel of Kennesaw led a brigade for two years with the rank of colonel.

The next of the tribe, Henry Christopher McCook, served as a lieutenant and chaplain, keeping unbroken the line of John's boys. Roderick Sheldon McCook, John's third son, was the only fighting sailor in the whole clan. He graduated at the Naval academy in 1859 and continued in service until he was retired for war disabilities in 1885. In the sea fights of the James river and in North Carolina waters, especially at Newbern and Fort Fisher, he was distinguished for gallant services. At Fort Fisher he fought with the monitors.

The youngest of this tribe, another John James McCook, served in West Virginia while in his twentieth year.

Canada Arms Her Cities.

Ottawa, Ont., Feb. 12.—At the annual meeting of the Dominion Artillery association the minister of militia, Gen. Gascoigne, commander of the Canadian forces, and others, made it known that in future there will be an interchange between the imperial troops at Halifax and the permanent Canadian corps, so that artillerymen and infantrymen of the various Canadian corps may join the Halifax garrison and possibly in the end go to Aldershot or elsewhere in Great Britain. Modern guns are to be placed in position at some of the Canadian cities. This will be done when the home authorities decide what weapon will be best suited for the work.

CHRISTIAN SCIENCE FAILED TO CURE

MISS CAREY PASSED AWAY
LAST NIGHT.

Physician Was Called In Shortly Before She Died, But Could Do Nothing For Her—Mrs. Dingman, a Pioneer is Called—Other Mortuary Mention.

Christian science did not save the life of Miss Flora Carey and Dr. Q. O. Sutherland was called about 2 o'clock. Later he visited the home again but the sufferer was apparently in a state of collapse, and nothing could be done for her. The indications are that she was suffering with Bright's disease.

Her mother died some time ago, and it is said that christian science was tried unsuccessfully in her case also.

Miss Carey died at the home of her father, Stephen A. Carey, on North Academy street, at five o'clock yesterday afternoon. She was thirty-one years old. For some time past she had been in poor health, and had been taking treatments above stated.

Her father is also an invalid, and survives her. A brother and sister are also living, they being, Miss Clara Carey, and Charles Carey, both of this city.

The funeral will be held at 1 o'clock Monday afternoon from the home on North Academy street.

Mrs. M. J. Dingman.

Mrs. M. J. Dingman died Friday evening at eleven o'clock, at her residence corner of Washington street and Magnolia avenue. She had been in poor health for some time, but had been confined to her bed for only one week. Mrs. Dingman was born in Fulton county, N. Y., in 1821, and would have been seventy-seven years of age next April. She was married to Winard Dingman at Illinois, N. Y., in 1837. The is survived by her husband and Annie M. Cleveland, a granddaughter, of this city; one son, Byron Dingman of Chicago, Ill.; one brother, Dr. John Daley, and one niece and nephew in California; two nieces, Mrs. Thomsen and Mrs. Aldridge, and a nephew, Dr. Clarence Daley of Cottage Grove, Wis., also a niece, Mrs. Chappell of Chicago, Ill.; two cousins, George and Russell Bryant, of Minn.

She with her husband, came from Oneida county, N. Y., to Wisconsin, in 1846 and settled near Cottage Grove, in Dane county. They lived there until 1863, when they moved to this county, on a farm in the town of Center. Mrs. Dingman, for the greater part of her life had been an exemplary and christian woman, having been a member of the Congregational church for thirty years. Always energetic and enthusiastic in every good and philanthropic work, ever ready to assist her friends and neighbors in time of need and adversity, she was a living exponent of a christian life, and died as she had always lived, in the happy conviction of a life beyond the grave.

The funeral will be held from the home at two o'clock, Monday afternoon. Rev. Robert O. Deulson will officiate.

Miss Lizzie Knipp.

A few days ago the doctors pronounced Miss Lizzie Knipp, who had been suffering with diphtheria for some time, out of danger, and the hearts of her parents were filled with joy. Their happiness was short-lived, however, for hardly had the sufferer recovered from one complaint, ere she was attacked by another—an abscess,—which caused her death yesterday afternoon at 4:30 o'clock.

Miss Knipp was the daughter of Mr. and Mrs. Louis F. Knipp, and was nearly sixteen years of age. That she should be cut off just as her life was beginning, is indeed sad, and the afflicted family will have the sympathy of all. Besides her parents, she leaves two sisters and one brother.

The funeral will be held from the home at 2:30 Monday afternoon and at 3 o'clock at St. Mary's church.

James McCue.

The remains of James McCue will arrive in Janesville at 8:10 o'clock this evening, coming from Hebron, Ill., and the funeral will be held Sunday afternoon at 2 o'clock at St. Patrick's church. Besides a wife and six children, he leaves two sisters and three brothers, Della McCue and Mrs. Michael Flanagan, Michael, Peter and John McCue, all of this city.

COUNTY MAY SINK NEW WELL

More Water Is Needed at the County Farm and Asylum.

More pure water is wanted at the county farm, and Superintendent Alker has under consideration the sinking of a new well. The present well, it is claimed, is not deep enough, and small quantities of sand are pumped up. The intention is to sink a new well, about 500 feet deep, that will reach rock bottom. The cost will be in the neighborhood of \$600.

RAILROADS RUSHED TO HANDLE CARS

A BOOM IN BUSINESS IS NOW ON.

More Shipments Go Through than at Any Time in the Past Eight Years

Conductor Had to Plan For Party a Month in Advance—Carriage Works Prosper.

More iron ore shipments have been arriving in Janesville of late, over the C. & N. W. railroad, than at any time during the same space of time in eight years.

These shipments come direct from the Michigan iron mines, and are on their way to the large foundries of Chicago.

Lumber and grain shipments are again getting numerous and not a few cars pass through the city daily.

"Business is now so brisk," said a local C. & N. W. freight conductor, "that I was obliged to ask permission to go to the Conductors' party four weeks ahead of time in order that I could lay off that night."

Business at the Janesville Carriage Works is on the boom, and next week every department will be running at full blast. Of late the working time has been eight hours, but next week it will be extended to ten hours.

BOUGHT A NEW TEAM

Coal Black Horses Will Draw the West Side Hose Carriage Hereafter.

Aldermen W. B. Stoddard, J. B. McLean and O. K. Miltimore accompanied by Chief John C. Spencer and Diver William Scott of the fire department, and Dr. E. D. Roberts, arrived home last evening from Chicago where they made the purchase of a new team for service on the west side hose carriage.

The team, which was purchased in the stock yard district, is now quartered at the west side station and are taking kindly to the situation. Each horse will weigh about 1300 pounds. They are black in color and are five years old.

The team cost, it is said, \$225 and will take the place of the grey team. The latter will be sold. The men have named the team "Pennsylvania" and "Iowa."

PLAN TO FORM A CHUACH

Local Workers Likely to Organize One in the Spring.

A movement is now on foot to establish a Christian church in this city in the spring. The Home Missionary society will probably take up the work and will raise about \$1,000. The movement is in the outcome of the meeting held in this city by the Rev. W. B. Taylor of the North Side Christian church in Chicago.

"During the past few days we have looked carefully into the matter," said a local worker, "and we now believe that we have enough pledged to carry out our plans in the spring."

THE MUSICIANS WERE BALKED

"Jack" Tuckwood and His Players Could Not Get to Fulton.

Seventy-five couples waited patiently in a dance hall at Fulton last night for "Jack" Tuckwood and his orchestra to put in an appearance, but Mr. Tuckwood and his men did not show up. While the crowd wondered where the musicians were, Mr. Tuckwood and three men were battling with the snow between this city and Indian Ford. After traveling four miles they were obliged to give up the task, and return to this city. Several farmers' boys volunteered to play, and the dance went on.

DONAHUE COLLECTS A NOTE

J. H. and P. L. Myers Are Held Liable By Judge Phelps.

Damages in the sum of \$411.10 were fixed in the municipal court this morning in the case of John H. Donahue vs. John H. Myers and Peter L. Myers. The suit was over a promissory note given by the defendants to the plaintiff. Mr. Donahue was a former resident of this city, being connected with the Hotel Myers.

INSPECTING CARS.

Small Defects Liable to Cause Trouble.

A man inspecting freight cars crawled under each car and scrambled about looking at or feeling of each nut, bolt, brake-beam and rod, journal, boxing, drawbar, etc., etc., until every part of the car had been gone over.

If nuts were missing, bolts about to drop out, brake-rods dragging the ground, brake-beams cracked, or any defect appeared in the running or important part, the car was chalked and the car number reported at the shops. Experience has taught the expensive folly of letting little defects remain uncorrected on engines or cars, until in time of need the cracked brakebeam refuses to hold, or the nutless bolt drops out of place, and a smash-up is the result.

If inanimate cars and engines are worth such care, why not the beautiful machinery of the human body? If you find daily aches or ails, be quite sure it is nature's cry for relief from some insult you have been guilty of. Perhaps you put coffee into your stomach each day by day.

Never thought that was any harm? Perhaps it isn't to some thoroughly healthy men, but it hits a great number hard, and some very hard, before they know where the bangs come from. Ten to thirty days without coffee will tell you whether you are susceptible to its alkaloids or not. The trial startles people who "know it never hurt me."

If one keeps on with the use of a thing that his mother nature objects to, there is sure to be a smash-up some day, and business, property, health, comfort and happiness may be lost before the wreck is cleared up. It is easy to change to Postum Food Coffee, a powerful liquid food, which when thoroughly boiled looks like Mocha, and has a delicious Java-like flavor, while the 80 odd per cent, of selected food elements go quickly to work to rebuild the lost phosphates and other necessities of the brain and complex nervous system.

THE WORLD'S NEWS OF YESTERDAY.

Washington, Feb. 12.—Consideration of the Indian appropriation bill was resumed by the senate Friday, and after being amended to some extent the measure was passed.

The most important amendment to the bill was that offered by Mr. Pettigrew, of South Dakota, which, if finally enacted, will restore the free homestead law so far as it relates to Indian lands ceded to the United States, for which lands the settlers have been obliged to pay the purchase price paid to the Indians. The bill carries appropriations aggregating nearly \$8,000,000.

The senate decided to adjourn until Monday.

A joint resolution providing for a survey and to determine the practicability of opening a navigable channel through the southwest pass of the Mississippi river was passed.

TO VOTE ON HAWAII MONDAY.

Senate Will Be Urged to Take Action That Will Be a Test.

Washington, Feb. 12.—The senate committee on foreign relations, with some members of the commerce committee, at a special meeting decided that the Hawaiian treaty should be pressed for consideration with the reassembling of the senate Monday, and an effort be made to secure a test vote of some sort that will develop the strength of the friends and opponents of the convention. Just how this test vote is to be secured was not made clear, but an effort is to be made by Chairman Davis to secure it on a question of privilege that will align the friends and opponents on opposite sides. There will be no attempt to take a vote on the merits of the treaty direct. If this test vote shows that the treaty cannot be ratified the committee will order a favorable report on the Morgan bill, which provides for annexation by legislative means, and the battle will be fought out in open session.

Too Great Power to State.

Washington, Feb. 12.—The house committee on commerce killed the senate bill to permit the state of South Carolina to control liquors brought into the state in original packages. The motion to report it favorably was lost on a tie vote. The action of the committee ends a long contest that has attracted national attention. One of the principal objections developed was that it would give the states the power to control interstate commerce and might lead to the invocation of the power in the case of other commodities.

Secretary Alger Improving.

Washington, Feb. 12.—The President and the members of the cabinet were agreeably surprised at the appearance of Secretary Alger at the regular meeting of the cabinet Friday. This is the first time in eight weeks that he has been able to attend. The committee then adjourned to next Tuesday morning. It is generally admitted that the action of the committee in adjourning over to Tuesday will prolong the session. Last night it was the prevailing opinion that the two houses would adjourn sine die Feb. 13. Now, however, final adjournment is not expected before about Feb. 25.

SPRING ACTIVITY COMING.

Cuban Insurrection Acts as a Deterrent to Speculation—Good Demands Reported for Wool Products—The Week's Failures.

New York, Feb. 12.—R. G. Dun & Co.'s Weekly Review of Trade says: "Business is pushing toward spring activity rather early. Events which have controlled are good buying of iron by the largest makers, the rise in cotton, with strength in goods, the great railway consolidation and the Cuban insurrection. The latter, with its possibilities, operates as a brake on speculation. The output of pig iron Feb. 1 was 229,823 tons weekly, the largest in the history of the business. The Illinois Steel Company has contracted for 1,000,000 tons Bessemer ore, and producers of other ranges count upon an advance in price. Bessemer pig rose to \$10.15, and gray forge to \$9 at Pittsburg, with finished products generally stronger and in larger demand than ever at this season. January was one of the biggest months in Connellsville coke output—623,975 tons.

"The rise in cotton, 5-16c for the week, results in part from better prospects for manufacture here and abroad, but only in part. The actual movement shows no change of consequence, but prices of goods have a stronger tone, and foreign prospects are better. Wool sales at the chief cities were only 5,093,200 pounds for the week. Prices are still strong. The opening of works idle for years, in spite of the heavy production already assured, is a striking feature in this as in the iron and other industries, and implies heavier demands for products than are now met by the unprecedented output.

"Bank clearings continue to point to an immense business doing in the country at large, in a total aggregating for the week \$1,434,000,000—less than 2 per cent smaller than last week and 52 per cent larger than in the corresponding week last year.

"Failures for the week have been 295 in the United States, against 267 last year, and 43 in Canada, against 61 last year.

SEARCH FOR PITTSBURG DEAD.

Fire Chief Humphreys Thinks There Are Bodies in the Ruins.

Pittsburg, Pa., Feb. 12.—The work of searching for bodies in the ruins of Wednesday night's fire was continued through Friday night by 200 men. The debris is still piled ten feet high. The work will be continued without cessation until it is positively known that no more dead are buried beneath the debris. That more people were killed Chief Humphreys of the fire department says there can be no doubt. Up to midnight one more body had been recovered from the ruins. It was that of William Walrabenstein, a milkman. The list of missing is rapidly swelling, the latest number being placed at thirty-eight. The dead so far as known number eleven.

The west-bound passenger train left the track near Otter Creek Junction, and the baggage and smoking cars were thrown down an embankment. The engine was badly damaged. It was set for a special order next Tuesday morning. Representative Ladd, who has charge of the measure, says he had fifty-two votes in the house for it and will surely pass it Tuesday.

JAMES MENGEL HANGED.

Makes a Speech from Scaffold and Dies Without a Tremor.

Springfield, Ill., Feb. 12.—James Mengel was hanged Friday morning for the murder of Dollie Briscoe. The execution took place in the west corridor of the Sangamon county jail and was witnessed by about 150 people.

Without a tremor, so far as could be seen, Mengel took his place unassisted upon the deathtrap, where he faced the crowd and said:

"Friends, I am now on the scaffold. I am going to heaven. I am about to go into eternity. I am going to meet my child in heaven. I am going to heaven. I am going to take other messages to heaven, and if you have anything to send I will gladly take them. My little woman (Mary Briscoe) has not long to live. She has forgiven me for anything I might ever have done. Everybody has forgiven me and I have forgiven everybody. I am going to heaven. I do not know that I have ever done anything wrong. I hope to meet you all in heaven. Good-by, boys, good-by. God bless you, everyone. I am going to heaven."

When Mengel had ceased speaking brief prayers were offered up by the clergymen. Rev. Mr. Carlos kissed the doomed man, the black cap was placed over his head and the trap was sprung.

Mengel murdered little Dollie Briscoe, aged 15 months, a daughter of Mary Briscoe, with whom Mengel had been intimate. The crime was committed the morning of July 27, 1897. The head of the mother of the babe was crushed with the same hatchet that was used to brain the little one, and the unfortunate woman lingered between life and death for several months before she recovered. The motive for the crime is supposed to have been jealousy. Mary Briscoe had discarded Mengel and refused to live longer with him.

Defense Lawyers Try New Tack.

Wilkesbarre, Pa., Feb. 12.—When court opened Friday for the trial of Sheriff Martin and his deputies, charged with the killing of the strikers at Lattimer, the defense introduced a new feature in the cross-examination by endeavoring to show that the evidence of the witness was influenced by the hope of securing damages from the government in the event of a conviction. Thomas Paris told the story of the march to Lattimer; at the first shot Paris said he ran, but was struck by a bullet when he was about fifty yards from the deputies. Mike Srochak told how some of the deputies had followed the fleeing strikers at Lattimer and shot at them as they ran.

To Increase Gas Supply.

Anderson, Ind., Feb. 12.—The De-trick New York syndicate, which owns most of the natural gas pipe lines in Indiana, has decided upon erecting a fifth pumping station to force gas into Lafayette, Indianapolis and other cities and furnish a reserve. It will be located in the north part of the county, and will cost over \$100,000. The last one erected was at Frankton. The syndicate will drill many wells in this county this summer. It is thought that more gas wells will be sunk this summer than during any one year in the past.

Wants Agriculture Taught.

Mount appeared before the state board of education Friday and made an argument in favor of giving primary instruction in agriculture in the public schools of the state, and asked the board to take his suggestions into consideration. SURGICAL OPERATIONS

FOR THE CURE OF PILES AND RECTAL DISEASES NO LONGER NECESSARY.

A Medical Discovery Which Will Change the Treatment of All Such Diseases.

It has long been thought not only by some physicians but by people in general, that the common, painful and exceedingly annoying trouble, piles, was practically incurable by any other means than a surgical operation and this belief has been the cause of years of needless suffering, because of the natural dread of surgical operations. There are many salves, ointments and similar remedies on the market which afford some relief in case of piles, but the Pyramid Pile Cure is the only preparation so far introduced that can be reliably depended upon to cure to stay cured, every form of itching, bleeding or protruding piles.

Mrs. M. C. Hinkley of 601 Mississippi St., Indianapolis, was told by her physician that nothing but a surgical operation costing between seven and eight hundred dollars, could cure her as she had suffered 15 years; yet even in such a case as hers the Pyramid Pile Cure accomplished a complete cure. She says: "I knew an operation would be death to me and tried the Pyramid with very little hope and it is not to be wondered at that I am so enthusiastic in its praise."

Mr. D. E. Reed of South Lyons, Mich., says: "I would not take \$500 and be placed back where I was before I used the Pyramid Pile Cure. I suffered for years and it is now eighteen months since I used it and not the slightest trace of the trouble has returned."

The Pyramid Pile Cure is sold by nearly all druggists at 50 cents and \$1 per package and as it contains no opium, cocaine or other poisonous drugs can be used with perfect safety.

No one need suffer from piles in any form who will give this excellent remedy a trial. Send for book on cause and cure of piles, sent free by addressing Pyramid Drug Co., Marshall, Mich., (formerly Albion, Mich.).

Secretaries of Associated Charities Say Dr. Greene's Nervura Cures.

The Associated Charities Thus Place Dr. Greene's Nervura Above All Other Remedies to Cure,—a Real Blessing to the Sick and Suffering—The Remedy Which Will Surely Make You Strong and Well.

No greater proof of the wonderful efficacy and great curative powers of Dr. Greene's Nervura blood and nerve remedy among the sick and suffering is possible than the enthusiastic and glowing reports of the Associated Charities concerning this wonderful medicine and the marvelous cures it is everywhere effecting.

Mr. Geo. S. Wilson, General Secretary of Associated Charities of Washington and the District of Columbia, and the best known man in the country in the field of charitable work, reports:—

"In our work of the Associated Charities of Washington, we have dispensed Dr. Greene's Nervura blood and nerve remedy among the sick.

"It has been gladly received and with very gratifying results. In one case especially of nervous debility the report is very encouraging. She was also afflicted with dyspepsia.

"I am pleased to say that all reports that have come to my knowledge have been highly favorable.

Geo. S. Wilson, Gen'l Sec'y Associated Charities of the District of Columbia."

More enthusiastic still is the report of Miriam F. Witherspoon, General Secretary of the Associated Charities of Worcester, Mass. (35 Pearl Street), regarding the great value, as a medicine, of Dr. Greene's Nervura and its marvelous powers to cure disease and restore health to the people. She says:—

"In my work as General Secretary of Charities in Worcester, I have distributed Dr. Greene's Nervura blood and nerve remedy among the needy poor and sick, and it has been received with thankfulness and great joy. One poor woman said she had been trying to save money enough to buy a bottle, and when she found I was to give her one, her joy and gratitude were great.

"In all cases the results have been as we hoped for, building up the feeble, nervous, overworked and underfed people who have in general no helper. As far as my experience goes it has been a real blessing.

M. F. Witherspoon, Gen'l Sec'y Associated Charities."

In these days when so many ordinary preparations are advertised, it is a real beneficence to the weak, weary, nerve shattered, tired and worn out sick and suffering to know positively and to be shown beyond any doubt or question that this one grand remedy, Dr. Greene's Nervura, does surely and certainly cure the sick; that it is the best remedy possible to take, either if one is only a little out of order, nervous and run down, or if suffering from more serious afflictions like nervous prostration, low blood and vitality, rheumatism, paralysis, stomach troubles, liver and kidney complaint, female weakness or other weakening and debilitating disease. In these reports of the Associated Charities is abundant proof that Dr. Greene's Nervura does cure the people, that it makes those who use it strong and well, and that it will cure you if you will take it. Don't fail to try it now.

Remember that in all cases you can consult Dr. Greene, 148 State St., Chicago, Ill., the noted and successful physician, absolutely free of charge, personally or by letter.

APOLOGY NOT DEMANDED.

Mr. McKinley Will Not Allow Personal Feelings to Influence Action of the Government—Waiting for Minister Woodford's Report.

Washington, Feb. 12.—The personal incident growing out of the publication of Senator Dupuy de Lome's letter to Senator Canalejas may be regarded as settled. This has been brought about by the short cablegram sent by Minister Woodford from Madrid, in which he states that the minister had resigned and his resignation had been accepted before he (Mr. Woodford) presented the request of the United States that he be recalled. The officials here are waiting for Mr. Woodford's promised full report. But unless this should contain some statement that is not now expected, there is no disposition on the part of the government to protract the closing of this unpleasant incident, and it is not expected that anything in the nature of a demand for an apology will be made. If a graceful disclaimer should come, that will be taken in the spirit in which it is made, otherwise the matter will be dropped, and the relations between the state department and the Spanish legation will run smoothly once more through the medium of Senator Du Bose, the first secretary, and now charge d'affaires. It can be said for the president that he shows little personal concern in the matter as it stands, and is not disposed to pursue Mr. de Lome in any personal spirit, and with this spirit in the head of the administration the end of the affair may be said to have been reached.

As the representative of Spain, Senator Don Juan du Bose, called at noon Friday at the state department and presented in writing the notification of the Spanish government that the resignation of Senator Dupuy de Lome had been accepted, and that Senator Du Bose was authorized to represent his government as charge d'affaires ad interim. The notification was purely formal, giving the facts of transfer, without mention of the incident leading to it. Having assumed his duties, Du Bose took occasion to pay a call of respect to the state department authorities. He was not accompanied by Senator de Lome, who, with this official act, becomes a private citizen of Spain, temporarily sojourning in this country. Beyond this, so far as present instructions go, there will be no further formalities beyond the departure of Senator de Lome within the next few days. His leave will be quiet, and devoid of any official or public character. The day of his departure from Washington has not been fixed, but it will be early next week.

At the cabinet meeting Friday the president briefly gave a summary of the correspondence that has taken place up to this moment respecting the retirement of Mr. de Lome, and remarked that it would be necessary to await Gen. Woodford's report. The matter was not discussed in any phase after this explanation of its status by the president. Assistant Secretary Day also made the same statement when asked whether the incident could be regarded as closed. It is scarcely expected Mr. Woodford will have anything material to add, except perhaps an explanation of the reason why his note failed to reach the Spanish government before it had accepted the resignation of the Spanish minister.

This news, circulating here in court circles, is confirmed by the emperor's relatives and by the dignitaries of his household, who declare that he is tired out by the cares and worries of governing.

It will not be a complete abdication, as he will retain the title of emperor and possession of the crown. This arrangement existed during the closing years of the reign of his predecessor, Emperor Ferdinand, when Archduke Louis was virtually a vice emperor.

Had to Jump.

THE FATE OF A PROMINENT MARINE GROCERYMAN.

P. H. Monahan, one of Detroit's Oldest and Best Known Merchants Meets with a Serious Experience.

From the Evening News, Detroit, Mich.

Prominent among the business men of Detroit, Mich., is Patrick H. Monahan, who resides at 199 Baker Street.

He has been actively engaged in the grocery business for the past forty-seven years, of which forty-two years have been in Detroit. Coming here nearly half a century ago he started into business at the corner of Second and Jefferson Avenues, and for years catered to the marine trade. From Duluth to Buffalo his name as an honorable, honest boat supply man was well known to all boatmen.

No matter what time of day or night, the Monahan Marine Grocery was kept open for the convenience of the lake boats. He is the best known and oldest retail grocery dealer in Detroit. He has been successful in business by his square dealings, and is yet to be found behind the counter any day of his large store, corner of Twelfth and Baker Streets. To a reporter, he recently said:

"When we first opened the Jefferson Avenue store we had to work day and night. The vessels that needed supplies, wanted them right off and we had to jump all the time. The reason vesselmen patronized us, was because we filled their orders at once. Every hour counts with them and we had a double set of clerks that worked day and night. I have been hustling all my life. No man can succeed in business without hustling. Some people hustle too much, and I was one of them."

"About four years ago I had to give up on account of my back giving out. It had bothered me for years. For a week I sat around the house and then had to go to bed. The family physician said that I had worn myself out by hard work. I did not do

much for nearly two years, and doctored for my kidneys. My friends advised me to try remedies that they had faith in, and I tried nearly all of them. I was ready for any remedy that would relieve me, but I did not receive any benefit."

"I read considerable during my sickness and in my daily paper I noticed frequently articles regarding the wonderful cures made by Dr. Williams' Pink Pills for Pale People, and how the pills contained, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. One day I read of a case like mine, in which a complete cure had been effected. That convinced me that the pills had merit, and I decided to try them as they cost only 50 cents a box (never in loose form) or six boxes for \$2.50, and could be had at any drugstore, or by mail from the Dr. Williams' Medicine Company, Schenectady, N.Y. The next day I asked the druggist regarding them. He said, 'We sell large quantities of the pills and they are well recommended by the purchasers.' They build up the blood, and restore the glow of health to pale and sallow cheeks, and effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. I bought a box and took it home, and commenced to take the pills. Before I had taken one box that intense pain which for fifteen years had nearly killed me was gone. I continued using the pills until I had taken four boxes, which made me feel as well as I had for years previous to my sickness. My friends noticed the change at once and were more than pleased to see me out again. I continued using the pills, and in less than sixty days I was so much improved that I was able to attend to business."

BIG FIGHT WITH FIRE.

Heavy Loss in New York City—Building's Owned by Levi P. Morton.

New York, Feb. 12.—Levi P. Morton's seven-story office building, with frontages in Nassau and Ann streets and known as the Nassau Chambers building, was completely destroyed by fire Friday. The firemen had a hard battle and for three hours there was every prospect of a great conflagration. Every fire company in the city from 59th street to the Battery was called out.

The Derby Desk company occupied both the Nassau and Ann street stores, and the basement of the building, where the fire originated, was occupied by the Herald Cycle company.

From the Nassau Chambers the fire spread to the four-story building adjoining, and the clothing store of Maduro Bros., on the ground floor, was quickly in flames. The loss here will also be practically complete.

Several firemen were badly cut by flying glass and debris, but none seriously injured.

The Murray stationery store occupied a small frontage adjoining the Derby Desk company in Nassau street, and the concern has very little, if anything, left.

The upper part of the Nassau Chambers was occupied by lawyers and as offices of a number of manufacturing concerns. All of them suffered severely from the fire.

The Bennett building, at the southwest corner of Nassau and Ann streets, caught fire several times, but was extinguished.

The loss at present is estimated at half a million, the larger share of which will be borne by the Morton interests, although it was stated that they are well insured.

The Derby Desk company and the Maduro Bros. are mentioned as the next heaviest losers.

Colorado Miners' Victory.

Denver, Colo., Feb. 12.—The state board of arbitration has rendered its decision on the questions in dispute between the miners and operators of the northern Colorado district. The board has found in favor of the striking miners in every particular.

Rich Gold Ore in Manitoba.

St. Paul, Feb. 12.—Quartz gold has been found in the Pembina Mountains, near the international boundary, in southern Manitoba. A farmer named Pollard arrived at Winnipeg with a very rich specimen of free milling ore.

Growing Trade with Brazil.

Buenos Ayres, Feb. 12.—Recent orders from Brazil to the United States for twenty locomotives are regarded by the press of Rio Janeiro as a sign of a renewal of the commercial relations between the two governments.

LOWELL--THE BARGAIN MAN.

WE are doing a truly remarkable business in the cloak department, selling as many garments each day as we did in the busy days of last November. when cloak business for the season was at its height.

We show more garments today than the average store displays at any time during a season, and they are all of this season's make, every one being correct.

When women see what splendid coats they can buy at half price and less, it is hard for them to resist. \$2.87 secures a choice from a lot of Ladies' and Misses' Jackets. \$5.00 takes many that are really wonderful value, and at a little higher figure you can pick out the best on the racks. February promises to be a record breaker for cloak business. Have you been in yet?
